

RING SIZING CHART

Ring measurements are very precise. Please ensure that the PDF is printed at 100% and after printing, confirm page scale is correct by measuring the below paper sizer with a ruler for accuracy.

METHOD 1: MEASURE THE FINGER

1. Print and carefully cut out paper ring sizer.
2. Create a slit by making a small cut on the line labeled "A".
3. Slip the pointed end labeled "B" through the slit creating a circle.
4. Place sizer around your finger and pull the end to create a snug fit.
5. The number aligned with "A" is your size.
6. If the measurement falls between two numbers, your size is a half size.
7. Double check for accuracy.

METHOD 2: MEASURE THE RING

1. Place the ring over the nearest sized circle of the Ring Size Chart.
2. The inner edge of the ring should align with the outer edge of the circle.
3. Double check for accuracy.
